

## The visit to the tv studio.

**On Monday, 13th January**, a Comenius group including me and a few other people went to Szczecin TV. We gathered at 10 in the morning. When we finally got there, we went to the coatroom where a lovely woman was waiting for us to guide us around the TV studio. First, she showed us a small room, where the weather forecast is recorded. We were informed that quite a lot of lights are needed to film that. We heard that it is usually live-reported. She told us how many and what quality cameras they use to film a few invited guests. We also learned how you can apply different backgrounds during filming. Then, we went to the big studio, where they shoot for example "Cooking with Chef" where there are several chefs invited from Szczecin's reputable restaurants. The place is also created for ordinary people like me, or you. It is a place where people are invited and they have an opportunity to show their talents, work, etc. It is a great chance for people who love to show up on television. We learned how the presenter can use small cribs if necessary, and a special slide projector. We went to the room with multiple computers and TV sets, where, as we learned, all recorded movies were edited. It was the end of our journey. At the end our "journalists" did a short interview with a lady who was our guide. This tour was very rewarding, I was so interested how it all takes place in the real world. One thing that disappointed me was too short time, it was meant to last more than an hour and took about 30 minutes. Anyway, everyone seemed to be very happy with the tours of the studio.
